REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 65-71 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims. As to claims 65-70, the prior art of record does not teach orthogonally encoding the repeated information blocks by applying a modification factor to each repeat of the information blocks, the sequence of modification factors applied to successive repeats of the information blocks forming one of a set of mutually orthogonal coding sequences. As to claim 71, the prior art of record does not teach decoder comprising an orthogonal code remover for removing the orthogonal encoding from an adder for adding corresponding ones of the symbols in the repeated information blocks after the orthogonal encoding is removed by the orthogonal code remover to form a summed signal for each symbol within the repeated information blocks. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
